WORK EXPERIENCE

Senior QA Engineer

6d Technologies

12/2024 - Present

Roles and Responsibilities

- Developed and maintained automation test scripts for Inventory Delivery Broker (IDB) using Robot Framework in PyCharm, ensuring efficient test execution and reliability.
- Conducted API testing using Postman, validating RESTful APIs with various request methods (GET, POST, PUT, DELETE), handling both positive and negative test cases
- Created and executed test cases with multiple request combinations, ensuring comprehensive test coverage and identifying critical defects.

Senior QA Engineer

Tecnotree Convergence Private Limited

10/2021 - 12/2024

Roles and Responsibilities

- Involved in end to end testing of BSS Telecom domain with hands on experience in various Tecnotree products - Customer management (DCLM), Order and product catalog management.
- Built automated test scripts to handle repetitive software testing work.
- Enhanced team efficiency by implementing agile methodologies and streamlining QA processes.
- Hands-on experience in API testing (SOAP & REST), Data Migration testing, Regression testing and UI/UX testing.

PROJECTS

VENTAS (etisalat) (12/2024 - Present)

- Performed comprehensive API testing using Postman, validating request/response payloads, status codes, and error handling across multiple endpoints.
- Maintained detailed documentation of test cases, execution reports, and defect logs for future reference and audit purposes.

Ooredoo Tunisia (01/2023 - 12/2024)

- Designed and executed 1,500+ test cases for CRM, achieving 98% coverage with under 0.1% escape defects.
- Enhanced defect identification by 30% by implementing a systematic approach using JIRA.

ZAIN Bahrain (07/2022 - 01/2023)

- Executed 200+ automated and manual test scenarios bi-weekly, maintaining a steady release cadence with less than 2% rollback incidents.
- Spearheaded the adoption of SQL clients for database testing, resulting in a 40% improvement in data validation accuracy.

STC Kuwait (01/2022 - 09/2022)

- Designed test plans and scripts for 3 new software product lines, boosting test coverage and efficiency by 15%.
- Identified and documented over 300 bugs in the first year, consistently meeting milestone deadlines.

SKILLS

Automation

Selenium
